Since the information given in this report is forward-looking, the reader should read the disclaimer statement and user agreement provisions at the end of this report.

About Icon Group Ltd.

Icon Group Ltd.'s primary mission is to assist managers with their international information needs using forward-looking economic analysis. Icon Group has field offices in San Diego, Paris, Singapore, Hong Kong and Lomé, Togo (West Africa). Icon Group has published hundreds of multi-client databases, and global/regional market data, industry and country publications.

Global/Regional Management Studies. Summarizing over 210 countries, management studies are generally organized into regional volumes and cover key management functions. The human resource series covers minimum wages, child labor, unionization and collective bargaining. The international law series covers media control and censorship, search and seizure, and trial justice and punishment. The diversity management series covers a variety of environmental context drivers that effect global operations. These include women's rights, children's rights, discrimination/racism, and religious forces and risks. Global strategic planning studies cover economic risk assessments, political risk assessments, foreign direct investment strategy, intellectual property strategy, and export strategy. Financial management studies cover taxes and tariffs. Global marketing studies focus on target segments (e.g. seniors, children, women) and strategic marketing planning.

Country Studies: Often managers need an in-depth, yet broad and up-to-date understanding of a country's strategic market potential and situation before the first field trip or investment proposal. Covering over 190 countries, each study consists of forward-looking analysis, statistics, forecasts, and information of relevance to managers. The studies are continually updated to ensure that the reports have the most relevant information available. In addition to raw information, the reports provide relevant analyses which put a more general perspective on a country (seen in the context of relative performance vis-à-vis benchmarks).

Industry & Trade Studies: Companies are racing to become more international, if not global in their strategies. For over 2000 product/industry categories, these reports give the reader a concise summary of latent market forecasts, pro-forma financials, import competition profiles, key references and trends across 200 countries of the world. Some reports focus on a particular product and region (up to four regions per product), while others focus on a product within a particular country.

Intranet Subscriptions: Icon Group Ltd. now offers full intranet subscriptions which brings millions of dollars of high-end global market research to the manager's personal computer. For more information, please contact Icon Group via our web site: www.icongroupedition.com, or please email: iconsubs@san.rr.com.

In addition to these reports, Icon Group publishes similar studies for other product categories, issue areas, regions of the world, countries, cities and states (in the case of the United States). If you wish to receive a report that is customized or addressing a particular issue, feel free to contact Icon Group:

1 INTRODUCTION

1.1 OVERVIEW

The liberalization of markets has lead to record levels of international investments. Icon Group's primary mission is to assist international managers to better plan and implement strategies in a global economy. It does so by providing various specialized industry reports, databases, publications and services to its clients. This report is one of many published by Icon Group Ltd. to assist executives and planners in monitoring and analyzing world markets. In addition to industry-specific studies, Icon Group Ltd.'s reports cover human resources management, export strategies, investment strategies, entry & marketing strategies, political and economic risk assessments and legal trends (e.g., intellectual property, licensing, and corruption).

This report covers the world outlook for passenger car tyres across 235 countries. For each year reported, the estimates are given for the latent demand for the country in question. Icon Group uses a number of proprietary econometric models which project economic changes within each country and across countries. From there, market potential estimates are created. The units used in this report are: million US \$.

As shown in the report, the market potential for passenger car tyres is expected to reach \$38,598.52 million by 2005. The distribution of the world market, however, will not be evenly distributed across regions. North America & the Caribbean will be the largest market with \$15,210.19 million or 39.41 percent, followed by Europe with \$13,183.55 million or 34.16 percent, and then Asia with \$4,205.59 million or 10.90 percent of the world market. In essence, if a firm targets these top 3 regions, they cover come 84.47 percent of the world wide demand for passenger car tyres.

1.2 MARKET POTENTIAL ESTIMATION METHODOLOGY

Icon Group uses a number of methodologies to create market potential estimates for products and services across markets, whether at the level of a region, country, or city. In this report, two modelling approaches are used. The first involves modelling the economic fundamentals of each market over time. This is based on standard models of economic growth (e.g. focussing on growth of income, or gross domestic product per capita). The second approach is more subtle.

The second approach involves collecting information on the market size or market potential for the particular product or service in question, typically in national currency, and translating these into a common currency. Icon Group uses the U.S. dollar as its common currency across markets. For some categories and markets, basic demand indicators are reported in national statistics, as is mostly the case for the United States and other developed markets. In most of the world's 230 countries, however, few statistics are available. For these, Icon Group uses

econometric models to estimate these markets, and forecast these over time. As true for all forward-looking economic forecasts, certain critical assumptions must be made. Two types of assumptions are made for the models used in this report. The first type covers the socio-economic and global environment. In essence, Icon Group assumes that dynamics seen in the past are likely to continue in the future, without major discontinuous changes. For example, if a city, country or region has not seen civil strife, major recessions, or substantial foreign exchange or currency changes, this is assumed to be the case over the forecast period. Likewise, the worldwide demand is foreseen to progress in a fashion similar to that seen in historical figures, based on aggregated data collected at the national level. The extent to which these assumptions are violated in the future will surely affect the accuracy of the forecasts presented here.

The second type of assumption is of greater importance, especially for those markets where insufficient local information is reported in the public domain, or in markets where there is higher uncertainty. Here, we use cross-country econometric models of demand, often called a cross-sectional pooled time series models with varying parameters. In simple terms, we assume an underlying consumption function that is allowed to vary over time and across geographic markets. Economists have long proposed various consumption functions. These include John Maynard Keynes, Simon Kuznets, Irving Fisher, Franco Modigliani, Albert Ando, Richard Brumberg, and Milton Friedman. Across these, and other authors, the consumption of a product (as opposed to the amount produced) is foreseen to vary depending on a number of local factors and the time frame that one considers (short-, medium- and long-run). In general, the variance of the market potential across markets is foreseen to be a function of variances in income, wealth, interest rates, expected future income, and a variety of exogenous factors, including geography and culture. Icon Group forecasts primarily rely on non-cultural economic factors in modelling cross-market demand, for a given product or service. We also model the market potential using a consumption function which assumes a constant average propensity to consume in the long run (i.e. as incomes rise, average consumption rates do not fall, as earlier argued by Keynes). Once the cross-market model of demand is specified, it is combined with the local economic models described above. As in all econometric exercises, the lack of local market figures in the public domain results in estimation errors. Furthermore, many intervening factors may arise over time that can materially affect the accuracy of the forecasts, including changes in local economic conditions, changes in political regimes, improvements in primary data, and currency fluctuations, among other factors. As the estimates and forecasts reported here are forward-looking and subject to assumption-induced errors, you are asked to read the caveats and disclaimers at the end of this report.

1.3 THE WORLDWIDE MARKET POTENTIAL FOR PASSENGER CAR TYRES

Worldwide Market Potential for Passenger Car Tyres (million US \$): 2000

9 DISCLAIMERS, WARRANTIES, AND USER AGREEMENT PROVISIONS

9.1 DISCLAIMERS & SAFE HARBOR

Summary disclaimer. This publication ("Report") does not constitute legal, valuation, tax, or financial consulting advice. Nor is it a statement on the performance, management capability or future potential (good or bad) of the company(ies), industry(ies), product(s), region(s), city(ies) or country(ies) discussed. It is offered as an information service to clients, associates, and academicians. Those interested in specific guidance for legal, strategic, and/or financial or accounting matters should seek competent professional assistance from their own advisors.

Information was furnished to Icon Group Ltd. ("Icon Group"), and its subsidiaries (Icon Group International, Inc.), by its internal researchers and/or extracted from public filings, or sources available within the public domain, including other information providers (e.g. EDGAR filings, national organizations and international organizations). Icon Group does not promise or warrant that we will obtain information from any particular independent source. Published regularly by Icon Group, this and similar reports provide analysis on cities, countries, industries, and/or foreign and domestic companies which may or may not be publicly traded. Icon Group reports are used by various companies and persons including consulting firms, investment officers, pension fund managers, registered representatives, and other financial service professionals. Any commentary, observations or discussion by Icon Group about a country, city, region, industry or company does not constitute a recommendation to buy or sell company shares or make investment decisions. Further, the financial condition or outlook for each industry, city, country, or company may change after the date of the publication, and Icon Group does not warrant, promise or represent that it will provide report users with notice of that change, nor will Icon Group promise updates on the information presented.

Safe Harbor for Forward-Looking Statements. Icon Group reports, including the present report, make numerous forward-looking statements which should be treated as such. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Reform Act of 1995, and similar local laws. Forward-looking statements involve known and unknown risks and uncertainties, which may cause a company's, city's, country's or industry's actual results or outlook in future periods to differ materially from those forecasted. These risks and uncertainties include, among other things, product price volatility, exchange rate volatility, regulation volatility, product demand volatility, data inaccuracies, computer- or software-generated calculation inaccuracies, market competition, changes in management style, changes in corporate strategy, and risks inherent in international and corporate operations. Forward-looking statements can be identified in statements by the fact that they do not relate strictly to historical or current facts. They use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "feel", "think", "hear," "guess," "forecast," "believe," and other words and terms of similar

meaning in connection with any discussion of future operating, economic or financial performance. This equally applies to all statements relating to an industry, city, country, region, economic variable or company financial situation. Icon Group recommends that the reader follow the advice of Nancy M. Smith, Director of SEC's Office of Investor Education and Assistance, who has been quoted to say, "Never, ever, make an investment based solely on what you read in an online newsletter or Internet bulletin board, especially if the investment involves a small, thinly-traded company that isn't well known ... Assume that the information about these companies is not trustworthy unless you can prove otherwise through your own independent research." Similar recommendations apply to decisions relating to industry studies, product category studies, corporate strategies discussions and country evaluations. In the case of Icon Group reports, many factors can affect the actual outcome of the period discussed, including exchange rate volatility, changes in accounting standards, the lack of oversight or comparability in accounting standards, changes in economic conditions, changes in competition, changes in the global economy, changes in source data quality, changes in reported data quality, changes in methodology and similar factors.

Information Accuracy. Although the statements in this report are derived from or based upon various information sources and/or econometric models that Icon Group believes to be reliable, we do not guarantee their accuracy, reliability, quality, and any such information, or resulting analyses, may be incomplete, rounded, inaccurate or condensed. All estimates included in this report are subject to change without notice. This report is for informational purposes only and is not intended as a recommendation to invest in a city, country, industry or product area, or an offer or solicitation with respect to the purchase or sale of a security, stock, or financial instrument. This report does not take into account the investment objectives, financial situation or particular needs of any particular person or legal entity. With respect to any specific company, city, country, region, or industry that might be discussed in this report, investors should obtain individual financial advice based on their own particular circumstances before making an investment decision on the basis of the information in this report. Investing in either U.S. or non-U.S. securities or markets entails inherent risks. In addition, exchange rate movements may have an effect on the reliability of the estimates provided in this report. Icon Group is not a registered Investment Adviser or a Broker/Dealer.

9.2 ICON GROUP LTD. USER AGREEMENT PROVISIONS

Ownership. User agrees that Icon Group Ltd. ("Icon Group") and its subsidiaries (Icon Group International, Inc.) retains all rights, title and interests, including copyright and other proprietary rights, in this report and all material, including but not limited to text, images, and other multimedia data, provided or made available as part of this report ("Report").

Restrictions on Use. User agrees that it will not copy nor license, sell, transfer, make available or otherwise distribute the Report to any entity or person, except that User may (a) make available to its employees electronic copies of Report, (b) allow its employees to store, manipulate, and reformat Report, and (c) allow its employees to make paper copies of Report, provided that such

electronic and paper copies are used solely internally and are not distributed to any third parties. In all cases the User agrees to fully inform and distribute to other internal users all discussions covering the methodology of this Report and the disclaimers and caveats associated with this Report. User shall use its best efforts to stop any unauthorized copying or distribution immediately after such unauthorized use becomes known. The provisions of this paragraph are for the benefit of Icon Group and its information resellers, each of which shall have the right to enforce its rights hereunder directly and on its own behalf.

No Warranty. The Report is provided on an "AS IS" basis. ICON GROUP DISCLAIMS ANY AND ALL WARRANTIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, RELATING TO THIS AGREEMENT, PERFORMANCE UNDER THIS AGREEMENT, THE REPORT. Icon Group makes no warranties regarding the completeness, accuracy or availability of the Report.

Limitation of Liability. In no event shall Icon Group, its employees or its agent, resellers and distributors be liable to User or any other person or entity for any direct, indirect, special, exemplary, punitive, or consequential damages, including lost profits, based on breach of warranty, contract, negligence, strict liability or otherwise, arising from the use of the report or under this Agreement or any performance under this Agreement, whether or not they or it had any knowledge, actual or constructive, that such damages might be incurred.

Indemnification. User shall indemnify and hold harmless Icon Group and its resellers, distributors and information providers against any claim, damages, loss, liability or expense arising out of User's use of the Report in any way contrary to this Agreement.

© Icon Group Ltd., 2000. All rights reserved. Any unauthorized use, duplication or disclosure is prohibited by law and will result in prosecution. Text, graphics, and HTML or other computer code are protected by US and International Copyright Laws, and may not be copied, reprinted, published, translated, hosted, or otherwise distributed by any means without explicit permission. Permission is granted to quote small portions of this report with proper attribution. Media quotations with source attributions are encouraged. Reporters requesting additional information or editorial comments should contact Icon Group via email at iconsubs@san.rr.com.

Sources: This report was prepared from a variety of sources including excerpts from documents and official reports or databases published by the World Bank, the U.S. Department of Commerce, the U.S. State Department, various national agencies, the International Monetary Fund, the Central Intelligence Agency, the United Nations, and Icon Group Ltd.
